Lead Developer and Designer

Designed and developed the website for the restaurant Modena Ristorante e Vinoteca using WordPress. Also, I'm in charge of using scripting or authoring languages, management tools, content creation tools, applications, and digital media and directing or performing Website updates.

Data Visualization with Tableau Feb 2023 - Mar 2023
Lead

I conducted a thorough exploration of the data to gain a deep understanding of the variables and identify interesting trends and patterns, then I was responsible for cleaning and preparing the data for use in the Tableau visualization. This involved data cleaning, data transformation, and data modeling, I designed the Tableau visualization, choosing the appropriate charts, graphs, and tables to convey the key insights. I also implemented interactivity features such as filters and drill-downs to allow users to explore the data.

Mini Projects Aug 2022 - Present
Developer

Conducted several small projects to apply my knowledge of logical thinking as well as proper coding techniques. These small projects include a calculator app, a password and QR generator, and a weather app. The programming languages used were Python, JavaScript as well as HTML and CSS, with their proper libraries.

The Witcher Webscraping Aug 2022 - Sep 2022
